LINCOLN'S

WATER PROOF BLACKING AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried; it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting, on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the nutritious properties with which leather is tanned. It will not only make leather water-proof, but it like-wise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the publics as the best article in the market.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESMAR'S Pills are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. TRIESMAR—Member of the Imperial College of Vienna and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESMAR No. 1.—Is a remedy of general and local debility, loss of vitiple power, premature decay, and all the distressing consequences resulting from early abuse, &c.; all physical impediments vanish like magic before its influence, thus restoring its use invaluable to those entering the married state.

TRIESMAR No. 2.—Entirely eradicates all traces of those disorders which copaiba and cubebs have so long been thought an antidote for to the ruin of the health of a great portion of the population.

TRIESMAR No 3.—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as Chemists are served by Valpeau, Lallemand, Roux, Ricord, &c. &c.* Price $5 each, or four cases in one for $20, which saves $3 and in 27 cases, whereby there is a saving of $5.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesmar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases cannot be sent but free of carriage.

☞ No. 157 Prince-st., (a few blocks west of Broadway) New York.—jan. 13 1y.

To Mechanics, Inventors, and Manufacturers.

ANNOUNCING, the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the last of January, 1858, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $75; 7th, $60; 8th, $50; 9th, $30; 10th, $25; 11th, $20; 12th, $15; 13th, $10; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Colloum, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to prepay twenty-six cents extra on each year's subscription, to prepay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies, for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $23.

For all Clubs of twenty and over the yearly subscription is only $1 00.

The new volume will be printed upon fine paper, with new type.

The general character of the Scientific American is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and, all intelligence which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains an index of each volume; is finely executed engravings, and notices of American and European improvements, together with an Official List of American Patents, Claims, published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopædia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

PATENT AGENCY.

SAMUEL JOOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Cavcats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences protected. Assignments and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

Belgian and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of visiting Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 20, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been employed as Solicitor, and has been in that capacity in constant correspondence and intercourse with this Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, close attention to the duties of his clients, and a trait of candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the office with whom I have had to do.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest character, of unquestioned knowledge in the business and practice of the office, and of great ability and assiduousness as counsel in the business in which he is about to engage.

STANLEY HOUSE,

WATER STREET.....AUGUSTA, ME.

G. W. JACKSON would respectfully announce to the Legislature and the Public, that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every necessary arrangement to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

Blackwood's Magazine

AND THE

BRITISH REVIEWS.

L. SCOTT & CO. New York, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY (Conservative.)
2. THE EDINBURGH REVIEW (Whig.)
3. THE NORTH BRITISH REVIEW (Free Church.)
4. THE WESTMINSTER REVIEW (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory and Radical—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, the Reviews, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

A. NICHOLAS, *President.* Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting in Paper—To Prevent Photographic and Analytic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Messrs. Brothers, extensive and skillful photographers, 359 Broadway, N. Y. Also, letter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Deliveries, Transfers and Bonds—40 cts. per lb.
Bank and Stock Certificates—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it preserves moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but makes it lasting as time.

For Steel Engravings it is excellent, and such as the indistinct of the climate does not destroy it. The properties used in the pulp being a preventive. In all the Southern States, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the one many paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also a proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

WORLD'S BLESSING!!

RHEUMATIC, NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colbroth has been suffering with last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, was unable to move himself in bed, and his friends considered him in dangerous state. Dr. J. B. N. Gould, of Boston, who has discovered a remedy for Rheumatism, Neuralgia, and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Elm House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is, indeed, a wonderful discovery. [From the Eastern Argus, Nov. 24, '57.

Bongos, or River Boats, how constructed and managed.—Scenery and Animals seen in boating up the River Chagres.—River Boatmen, their undress and their Peculiarities.

Before the railroad was constructed, the gold and silver bullion used to be brought upon the backs of pack mules from Panama to Cruces or Gorgona, where it was transferred to the *bongos* or river boats, in which it was brought down the river some fifty or sixty miles to Chagres. These boats were usually from thirty to fifty or more feet in length, by from five to seven or eight feet in width. The better ones had a short space at the stem, and also the stern, decked over on a level with the gunwales, while the space between—amid-ships—had a raised roof which served also as a deck,—some six or seven feet above the keel, forming a covered cabin, the sides to which were walled up with boards and pierced with windows. The poorer boats had no deck nor cabin; but a part of the boat was usually protected by a canvas awning or cover, or by a thatch of palm-leaf. These boats were usually propelled by setting-poles; oars or paddles being but seldom used. In going up stream and against the current, the boat was usually kept close in shore, both to avoid the resistance of the current and to take advantage of its eddying reflex, as well as to be protected from the sun's rays or from the heavy rains by the huge forest trees which often overhang and overshade the stream, for the width of a rod or more from its banks. I have often passed in a boat, for miles, under such a canopy of perennial greenery,—the limbs of the trees covered to their extreme tips with climbing and parasitic plants, and glowing with a magnificent profusion of blossoms of every shade of purple, scarlet, orange, yellow, and of every variety of form and size,—while birds of most beautiful and gorgeous plumage,—tropeos, orioles, parrots, parroquets, and macaws were flitting as they chattered among the branches,—or were demurely perched in some shady nook in the twilight of the all abounding verdure. Occasionally, as our boat passed along, a troop of monkeys upon the branches of the trees, disturbed by our approach, would beat a retreat, leaping nimbly from limb to limb of the trees, and passing from tree to tree without once descending to the ground,—all the while pouting forth a torrent of the most discordant yells, in tones of apparently commingled fear, spite, menace, and abuse, till they had safely ensconced themselves in some deep recess of the forest, when the sounds became changed, and their voices seemed uttered in shouts of defiance, scorn, and triumph. Here and there, stretched out upon the prostrate trunk of some large tree which had fallen into the river, might be seen a caiman (alligator) 10 or 16 feet in length, basking somnolently in the sun, and looking so like an old, half decayed log, that we never suspected it of being a "thing of life," till, as we drew near, we saw it slowly move, and lazily drop itself into the water and disappear.

The crew of one of these boats numbered from six or eight, to twelve or fifteen men.—These were under the command of the *padron* or master of the boat. The commonly wear, when at their labors, only a pair of coarse canvas or duck trowsers; though they usually carry with them a red or blue flannel shirt, which is their only upper garment, and which is usually worn like a frock, as a full dress suit when they go on shore at any village.—Sometimes, when at their labor, the shirt only is worn and the trowsers are dispensed with.—And occasionally, I have seen the boatmen in *puris naturalibus*,—entirely naked,—while propelling their boat. In addition to the two articles of apparel already named, the boatman usually has a coarse palm-leaf hat,—which he usually wears when he is exposed to the direct rays of the sun,—and which is of a conical form, with a brim of only moderate width, and with each alternate stripe of the braid from which it is made dyed black. Besides these, some of the boatmen have sandals, which consist of a piece of the undressed hide of the hog or the bullock cut into the shape of the under surface of the foot, and used as the sole. This sole has, upon its upper side, a loop, under which the great toe is passed, and it is rigged with thongs of raw hide, by which it is made fast to the foot and ankle as we usually tie on our skates. The sandal, however, is not worn in travelling through mud, nor is it usually worn within doors; being chiefly used in travelling through the forest. B.

FRANKLIN HOUSE, JAN. 20.

Editor of Daily Whig:—I wish to say to your city fathers, "and the rest of mankind" that Bangor is a model city, beautiful for situation on the hills around about, streets wide and spacious, adorned with beautiful residences, lined with ornamental trees, which in winter are pleasant, and in summer delightful. Your churches outwardly manifest taste and public spirit, and inwardly piety and devotion. Your school houses are testimonials of regard for the welfare of the young, and your hotels, especially the Franklin, pleasant houses for the passing stranger; and, on the whole Bangor well merits the appellation of "Queen city of the East." Nevertheless, as saith the angel in the Apocalypse, "I have somewhat against thee." Your streets have not names, nor your doors numbers, at least names upon the corners that can be read by all men. A stranger is exceedingly annoyed in attempting to find a particular residence which he has been told is on some street, but he is unable to find the street.

If your city fathers will place boards on the corners, labelled with the names of the streets, and your treasury is empty, we strangers will pay the bill. ONE OF THEM.

The attention of our City Council has frequently been called to this matter of street signs—but for some reason unknown to us, the matter has not been attended to. Let us have the principal streets labelled, at any rate.

TELEGRAPH EXPERIMENT.—On Thursday night last, the several telegraph lines between New York and Halifax, N. S., a length of 1180 miles of wire, were connected together—messages were transmitted, and New York and Halifax conversed together freely and smoothly for an hour. The New York line was then disconnected at Rutland, Vt., and the line from Rutland to Montreal attached, making from Halifax to Montreal 1120 miles. Conversation was carried on between Montreal and Halifax, and the intermediate stations of Rutland, Boston, Portland, Calais, St. John, and Sackville for another half hour, as freely and perfectly as on a line of 10 miles length.

The Aroostook Pioneer speaks in terms of just condemnation of the plundering of timber upon the public lands belonging to the State, which has been practiced for some time past.

FIRE AT KENT'S HILL.—We learn that the house of Mr. James Packard, of Readfield, (Kent's Hill,) was destroyed by fire on the evening of the 16th inst. The outbuildings were saved by tearing down the shed connecting them with the house. Mr. Packard's loss is about $1500, on which he has an insurance in the Monmouth Mutual Company, for $650.

Ex-Mayor Wood, not being treated with that distinguished consideration at Washington, which in his opinion was due to his character and eminent services, has returned to New York in high dudgeon, and it is said is about forming a movement in favor of Henry A. Wise for the next Presidency. Mr. Buchanan alienated all the respectable portion of the party by his disgraceful removal of Mr. McKeon at the demand of the Wood faction—and he has now incensed the subterraneans by acting upon the somewhat tardy discovery that Wood and his crew are too discreditable for him to honor with any further personal favors. Perhaps the redoubtable Ex-Mayor would accept the Governorship of Utah. We think Brigham might get along harmoniously with him.

THE LATEST OUTRAGE.—A young German lady named Wolfshon has just been rescued by legal process from a lunatic asylum in the vicinity of New York, where, as it appears she was incarcerated by her father for the purpose of "cutting down her pride." Dr. Covel, physician of the City Prison testified that she was not at all insane—but, on the contrary a very intelligent young lady. Mrs. Lucas, the matron of the asylum, gave similar testimony—for doing which it is said she has been deprived of her situation.

POLICE COURT, Thursday, Jan. 21.—The case of the young men charged with the robbery of Mr. Miller's store, was under examination. The Court considered the evidence insufficient to hold McLaughlin, Fanning, or Herrin, and they were accordingly discharged. William Webster was held for trial, and the amount of bail fixed at $500.

The Washington correspondent of the Albany Journal has the following complimentary remarks in relation to the recent speech of Hon. Israel Washburn.

"Washburn's speech on the Kansas question abounded in that vigorous 'down-east' sense which always permeates and impregnates his efforts. If his manner were less spirited and more deliberate, the superabounding strong passages in his speech would stand out in bolder relief. He is a good debater—clear and emphatic."

A WAR ABOUT HAND ORGANS.—Quite an amusing controversy has been carried on of late in relation to hand organs, between a well known lecturer and a Bank President, both residing in the same locality at the South End. It seems that the invalid wife of one of the parties has a penchant for this species of music, the strains having a soothing effect upon her nerves; therefore the itinerant musicians are well patronized, and make frequent calls at that house. On the contrary, a perverse influence is exerted upon an invalid in the neighbor's family. Party number two takes as much pains to drive the grinders away as number one does to retain them. The bribes them to go, and another [illegible] them to stay, and between the two the grinders are reaping a rich harvest.—*Boston Jour.*

GOV. ROBINSON'S MESSAGE.—The Topeka Legislature assembled at Lawrence, and voted to continue its session near the Territorial Legislature, to which some of its members are also returned.

Gov. Robinson transmitted a message in which the fraudulent schemes and villainies of the pro-slavery usurpers and their democratic defenders, together with their libels upon the free State men are set forth with great plainness and truthfulness. We can find space for only a few extracts.

The Governor says:

The convention which framed the Constitution at Topeka, originated with the people of Kansas Territory. They have adopted and ratified the same twice by a direct vote, and also indirectly through two elections of State officers and members of the State Legislature. Yet it has pleased the administration to regard the whole proceeding as revolutionary and treasonable.

This constitution in the main is in accordance with the views of a large majority of the people of Kansas. It is prevented from becoming the active law of the land because of an earnest desire on the part of the people to avoid collision with the federal authorities, while there is a prospect that they can in any other way obtain peacefully their natural, organic and constitutional rights.

We have had numerous promises and pledges that our just rights should be speedily secured to us, but every pledge and promise has been broken.

Force and fraud, endorsed by the administration, have been the rule in Kansas from the beginning. The history of the several Governors who have been sent to Kansas, is highly illustrative of the policy which the administration has attempted to carry out.

Hon. A. H. Reeder was the first Governor sent to Kansas, and, according to high authority, for the purpose of making the Territory a slave State. But the government resulting from the invasion of the 30th of March, 1855, was too much for him to execute upon the people, and he was removed.

Next came the reign of terror under Gov. Shannon, but he sickened at the sacking, burning and butchering by his militia, and he was removed.

Next came Gov. Geary, who called off the dogs of war, pending the Presidential election, and the people had rest for a brief period.—When, however, after the election, the olive branch was to be exchanged for the upas, he saved his self-respect by resigning his office.

Secretary Stanton succeeded Gov. Geary, and later, Hon. R. J. Walker became Governor of Kansas—both gentlemen of character and influence and from the South. They came with the same words of promise; and unfortunately for their continuance in office they believed in the fair terms of the President, and endeavored to realize them in some degree to the people. They have both been discarded.

It would seem that there is a power behind the throne greater than the throne; that the slave power governs this as it did the last administration; that no conduct, however judicious, no doctrine of popular rights, however well-established, no principle of a republican government, however important, is of any avail before the insatiate demands of this despotic power. Democracy, with such an exposition of its cardinal principles as the present administration is making, becomes a by-word, a hissing and a reproach with all honest men.

The present attempt on the part of the General Government, with all its executive power and patronage, is to force upon the people a constitution framed by a minority of the voters of one-half of the counties of the Territory, and that, too, without giving the people an opportunity to express their dissent from any of its provisions.

The pretended submission of the question of slavery—the pet institution of the administration, and for the protection and spread of which the General Government seems to exist—is, in fact, no submission at all. It is simply the establishing of slavery in the Territory and in the State, let the people vote as they may.

Should Kansas be admitted into the Union under that constitution and government, there can be no radical change in it for four years—the State Senators being elected for that term.

The people of Kansas are nearly unanimous in opposition to this fraudulent government, and have sternly resolved and protested against it in various ways, but there is reason to fear that the administration will override the sovereignty of the people and entirely disregard their wishes.

In such an event, a question of grave importance arises for your consideration. What shall be done to relieve the people of Kansas from this despotism of the federal administration? This question, in your wisdom, you may be called upon to decide.

He alludes to a remark of Gov. Denver's in his recent message,—to the effect that the collisions in Kansas might have been avoided if the people had shown as much "toleration" as those of Nebraska. He says it is difficult to conceive how any people could have been more tolerant. "Did they not (says Gov. R.) tolerate the invasion of March 30th 1855, when a foreign government was forced upon them? Did they not tolerate without resistance the invasion of the next autumn, when an army of 1200 strong was brought against them by federal authority, without provocation."

Did they not "tolerate" the raid upon Lawrence led on by a U. S. Marshal? Have not our citizens submitted to be confined on prairies and in prisons for no offence, with sufficient meekness and toleration?

Have they not "tolerated" among them the appointees of the President, whose hands are red with the blood of their victims, as no other people have done?

WASHINGTON MATTERS.—The following is from the correspondence of the New York Evening Post:

All parties are talking to-day of Mr. Blair's speech of yesterday on the Nicaragua question. The opinions of the administration men may be expressed in the words of a Southerner, who said of it: "That speech will do no more mischief than any other that has been made on this floor."

Mr. Blair handled the slavery propagandists without gloves, and expressed his opinions of "the institution" with a freedom and boldness worthy of imitation by members from the free States. His arguments were all sustained by quotations from the "founders of our institutions and the Democratic party, and his assertions by a variety of authorities which are undisputed and indisputable. He showed that the gradual emancipation of slaves is inevitable, that there is now no proper place for their settlement, and advocated a legal acquisition of Central America as a place suitable for the colonization of free blacks under our laws and protection.

The speech has produced great sensation here, not only as a profound view of the question, but as marking the new era when men of ability can discuss slavery with the same moderation which they do any other question, and can propose practical means for its gradual abolition without raising a riot on the floor. It indicates the immense advance which Free State principles have made since the passage of the Kansas-Nebraska bill.

LEGISLATURE OF MAINE.

TUESDAY, Jan. 18.

The SENATE proceedings were not of special interest.

HOUSE. The following among other petitions were presented:

Of Veazie and Mercantile Banks, for renewal of charter—several petitions for aid to Maine Medical School; also several petitions for aid to E. M. Conference Seminary.

Of Moses Rose and others for an appropriation to build a bridge across the Presque Isle stream; of Wm. S. Gilman & Co., for aid from State.

Mr. Porter of Lowell laid on the table a bill to abolish imprisonment for debt.

THE ARMY IN UTAH. H. P. Morrell of Newark, N. J., writes from Fort Scott, Nov. 28, as follows:

The Mormons have stolen about 1200 head of oxen, and between 400 and 500 mules, which were run off by mounted Mormons while grazing at a distance from the camp.—This was before the dragoons arrived. Of course we had no means of pursuing. They have burned 468 000 lbs. of supplies of the army, consisting of provisions and clothing, which were hauled in ox wagons, and traveled without escorts of soldiers. Still we have enough left to subsist upon until the middle of June, by which time we can whip the Mormons or get supplies from the States, when the fighting commences.

THE BEE THAT KILLS THE WEEVIL.—Not long ago we copied a paragraph from Dr. Fitch's article in the Journal of the New York State Ag. Society, in which he recommends importing some of the insects from Europe that live upon the weevil, as we call the wheat fly. This idea has caused some amusement among the faithless, and a wag of a neighbor said he thought the President had better send Dr. Fitch and the Editor of the Farmer, over in an *armed ship* as ambassadors plenipotentiary to negotiate for and bring home a *bug* or two for seed.

Ambassadors have been sent to other countries in armed ships on a great deal smaller errand and for a much more useless object.

Now, can there be a more worthy object for government to expend money for, than to introduce some remedy for so great an evil? We contend that Congress ought to appropriate a sufficient amount of funds and place it in the hands of the agricultural department of the Patent Office, with full powers given to introduce into different sections of the Union this little insect, where it can exert its natural instincts in the destruction of the weevil. It is possible the experiment may fail. It is possible that it may require other conditions besides a full supply of weevils to continue its existence, but we shall never know until we try it.—*Maine Farmer.*

SAD ACCIDENT.—In the neighborhood of Trinity, Newfoundland, on Sunday, Dec 27th, a large number of children were playing on the ice, when two brothers, named Egan, 14 and 16 years of age, and a boy named McGrath, about 10 broke through. A sister of Egans, 10 years old, seeing her brothers sink, ran screaming towards them, when she also fell through. They were all drowned.

ACQUITTAL ON A CHARGE OF MURDER.—Thomas Washington Smith has been acquitted of the murder of Richard Carter at Philadelphia.

The counsel urged the insanity of the accused, whose wife it will be remembered was a ward of Carter. It was alleged that previous to her marriage Mrs. Smith had been seduced by Carter.

CAUSE ENOUGH.—In the Recorder's Court, yesterday, when the case of Wm. Gardiner was called, Mrs. Congriff, the principal witness for the prosecution, declared her inability to remain in court, as she felt quite ill. Judge Dunlap very reluctantly excused her for one hour, but when the time expired, the witness had given birth to a fine baby and sent word that it would be impossible to tell when she could appear on the witness stand. The court was rather astonished.—*Sacramento Bee, Dec. 10.*

Thomas Allibone, late President of the Bank of Pennsylvania, against whom the Directors of that concern have made such serious charges of defalcation, and of $200,000 indebtedness to the Bank, returned from Europe in the steamship America.

Hon. Edward Everett has repeated his eulogy on Washington sixty-five times, and realized therefrom $36,000 for the Mount Vernon fund.

"SO TIRED."

Weary of life? ah, no—but of life's woe;
Weary of its troubles and cares;
Willing to rest—because so well I know,
What draughts the hand of passion still prepares.
"So tired!"

A little child came panting in from play, the other night, and climbing into its mother's lap, laid its head upon her bosom, and uttered those two words. I saw the fond young mother brush the golden hair from the damp moist forehead and press her lips again and again to the flushed cheeks. The shadows of evening were falling fast around us, and the birds had already sung themselves to sleep.—Little shoes and stockings were drawn off and laid aside—little weary feet bathed and cooled—a little night dress took the place of a pretty blue frock and white apron, and the boy was quiet. With a sigh of satisfaction he nestled closer in her arms; his blue eyes closed, and her cradle song grew lower and lower as his breath came longer and more regularly through his parted lips. "Happy sleep of childhood!" She arose and went softly to her own room, to lay him in his little crib, and I was left alone. Heaven knows what memory of a time when I too was cradled upon a loving breast—when the dead mother, whose face I cannot remember, sung to me in the twilight—came over me as I took up the infant's cry.
"So tired!"

A man of business—a man whose name is a bond on Wall street—why should he lean his head upon his hand and sigh, as the words fall from his lips? Tired of his gay and busy life, of his elegant house, his fair daughters, and his fashionable wife? Tired of those and longing for the little red farm-house among the hills of his native home, where he used to play, a bare-footed and light-hearted boy? Even so, as strange as it may seem. Yet not so much for the farm-house as for the happiness and innocence that stayed behind it, and which he can never hope to find in his dusty office or splendid home.
"So tired!"

She has been a loving wife and indulgent mother. Six strong sons had she reared beside that cottage hearth, but the grave has claimed them all but two, and those the world has taken. The husband of her youth died long ago; and to-day, her sixtieth birth day, she sits alone in the deserted homestead. To her by and by is the "old woman," to the brilliant wives "a good old thing, but so old fashioned" to their homes and their children almost a stranger. Her tears fall as she thinks of them in the distant city, gay, prosperous, wealthy and happy, yet not remembering her on this day, even a line to say, "Dear mother, I love you." This is her reward for years of toil, care and anxiety. She has outlived her generation, and when she dies, she will barely be missed by those to whom she has given health and strength and life itself. Poor, lonely old woman! Well may the bitter tears fall fast—well may you long to die! For this is often the return for love and devotion that has outwatched the stars and seen the moon grow pale.
"So tired."

Yes, turn from the brilliant crowd that listens eagerly for every word you utter, fair songstress, and heed what your heart is saying. Words of fire may fall from your rapid pen—your own wild soul may stamp its impress upon the page before you—the world may place the crown of laurel upon your bowed head—but it will be a diadem of thorns. In the height of triumph—in the fever of success—there will come a sudden pause, and the iron will enter your soul, as you remember that one face still, calm and cold. Fame, wealth, success—oh! what are these to happiness? Vanity—vanity all! and "vexation of spirit," and you bow your head and weep to think it should be so.
"So tired!"

On! little child, not yet released from thy mother's care, it would be better for thee to sleep in the tranquil sleep of death, within the shelter of her arms, than to tread the path which we are treading! There are sharp thorns hidden among the fairest flowers—there are treacherous quicksands in the fairest valleys. God help thee, boy, for only a hand from Heaven can lead thee safely there. The golden hair will turn to silver, it may be, and the blue eye will wear an anxious look before the painful journey is half done, and evil shapes will mock and mutter when thy heart faileth thee, and thy steps are faint.
"So tired!"

My boy, cling closer to thy mother's breast. For a day will surely come when thy lips will utter these self-same words, and she will not be beside thee, to hush thee into forgetfulness of all thy troubles. God help thee, then, and lead thee to the only refuge "where the wicked cease from troubling and the weary are at rest."

P. K.

DEAR SIRS—We are selling Perry Davis' Pain Killer, with very little effort on our part; sales were small at first, but as it became known in our community, the demand increased very rapidly, far beyond our expectations, and every person that bought it would come after more, and speak in the highest terms of it as a valuable remedy for all those diseases your pamphlet spoke of.—From these recommendations we were induced to use it in our own families, and now continue its use with great satisfaction. We have sold more of the Pain Killer than we ever have, since or before of any other medicine in the same length of time; and we do not hesitate to say that it has given better satisfaction to the purchaser than any other article we have ever sold. Hurry of business has prevented our sending certificates; but we have in our vicinity, from fifteen hundred to two thousand living witnesses, who testify to their neighbors, day by day, of the value of Davis' Pain Killer. Keep a large supply in the West. It is just such a medicine as the people want, and they have already found out that they can cure the Fever and Ague for twenty-five cents. It will cure a cold in one hour,—a severe cough in one night—and it has proved to be the best medicine in use for a diseased stomach, and many other purposes.

Of Belfast, being in the city on professional business, has, by request of many of the citizens, consented to remain a few days, and attend to such persons as may desire his services. He has taken rooms at the Hatch House.

Those calling upon the Doctor should understand that he can form no reliable opinion except by an examination of the case, and the examination is describing the feelings of the patient and declaring the disease. Prior conversation with friends is of no value, and only occupies time which is valuable. dec18tf

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit documents of every kind. Some say it is imagination. Of course they assign any thing but the real and philosophical reason.—Inflammatory Rheumatism, Gout, Palsy, Burns, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frosted Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething children are not often cured in from 5 minutes to a few days simply by the imagination. Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the disease very speedily.

Large Bottles Ten Times the Cheapest.
KEEP WELL CORKED.
Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

A CARD.

To Druggists and Merchants of Maine.—For the convenience of dealers and individuals of this State, I have appointed H. H. HAY & CO., Portland, my Wholesale Agents for the State of Maine, and they will be at all times supplied with all sizes of my "Genuine Electric Oil." I would urge on all dealers in medicine to order from Messrs HAY & CO., a supply of my Oil at once, that they may be able to answer the demands. They will also furnish each dealer with Show Cards, Posters, and 1000 Circulars with their name printed thereon gratis. A. E. SMITH, Chemist, Philadelphia.

DR. SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

IS AN ARTICLE THAT EVERY BODY needs who is not in a perfect state of health, for the *Liver* is second only to the heart in our human economy, and when that is deranged the whole vital machinery runs wrong. To find a medicine peculiarly adapted to this disease has been the study of one of the proprietors, in a large and extended practice for the past twenty years, and the result of his experiment is the Invigorator, as a never-failing remedy where medicine has any power to help. As a Liver Remedy it has no equal, as all testify who use it.

A lady, writing from Brooklyn, says, "Would that I could express in this short letter the value your Invigorator has been to me in raising a large family of children, for it has never failed to relieve all affections of the stomach, bowels, or attacks of worms. If mothers once had this remedy placed within their reach and were taught how to use it, a fearful and untold amount of agony might be saved."

One of our prominent bankers says, "Five or six years since, I found myself running down with a liver difficulty; resorting to your Invigorator, was greatly relieved, and continuing for a season, was entirely restored."

A clergyman called at our office the other day and said he had given a poor woman a bottle, who was suffering very badly from Liver Complaint, and before she had taken the whole of it she was at work earning bread for her family.

A gentleman recently from the West, says, while at Chicago he was attacked with a slow, lingering fever, that baffled the skill of physicians, but the Invigorator cured him in a few days.

One of our city merchants said, while on a visit to Troy, a few days since, he was attacked with bowel and stomach disorders, so as to confine him to his room. He sent to the drug store for a bottle of Invigorator, took one dose, which relieved him so that he was able to attend his business.

An acquaintance, whose business compels him to write most of the time, says, he became so weak as to be unable at times to hold his pen, while at others sleep would overpower him, but the Invigorator cured him.

A gentleman from Brooklyn called on us a week or two since, looking but the shadow of a man, with skin yellow, pale and deathlike. He had been for a long time suffering from Jaundice and Dyspepsia, and unable to attend to his business. We saw him again to-day a changed man, and to use his expression, he has not seen the bottom of the first bottle, and farther adds, "it saved my life, for I was fast going to a consumptive's grave."

Among the hundreds of Liver Remedies now offered to the public, there are none we can so fully recommend as Dr. Sanford's Invigorator, or Liver Remedy, so generally known throughout the Union. This preparation is truly a Liver Invigorator, producing the most happy results on all who use it. Almost innumerable certificates have been given of the great virtue of this medicine by those of the highest standing in society, and it is, without doubt, the best preparation now before the public.

IMPORTANT DISCOVERY

CONSUMPTION CURABLE,
BY THE USE OF
Fousel's Pabulum Vitæ.

FOUSEL'S PABULUM VITÆ

This VEGETABLE PRODUCTION has proved itself to be the most remarkable medicinal preparation ever discovered, for the effectual cure of

Pulmonary Consumption,

and also of COUGHS, COLDS, SORENESS OF THE CHEST, BRONCHIAL IRRITATION, and all other affections of the air passages, which have a tendency to produce that FEARFUL MALADY in those predisposed.

This wonderful discovery, from its volatile nature, gives vapor freely, and, consequently acts DIRECTLY upon the Lungs and Air Passages, arrests the development of tubercles in the lungs, and in their softening process causes the matter to be expectorated without difficulty, and effectually heals the ulcerated cavity; it quiets the cough, subdues the night sweats, the hectic fever and the chills, and restores the healthy functions to all the organs of the body. A trial of one bottle will speedily convince the most skeptical of its astonishing efficacy, and its superiority to all other specifics.

CERTIFICATE OF DR. A. A. HAYES in reference to the *unequalled* virtues of this great discovery:

"This preparation by chemical analysis was proved to be free from Opium or any of its compounds: nor were any of the Alkaloids present.—It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease, but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration."

Respectfully, (Signed) "A. A. HAYES,
State Assayer.
16 Boylston street, Boston, Dec 19, 1857."

Directions in English, French, and German, accompany each package. Price $3 per bottle.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

CONGRESSIONAL.

WASHINGTON, Jan. 2..

SENATE.—The Secretary of War was requested to furnish estimates of the amount necessary for the payment of such volunteer officers in Florida during the past year as have not been paid for want of appropriations applicable to the purpose.

Mr. Jones, of Tennessee, from the Committee on Public Lands, reported back the Homestead Bill, recommending its passage.

It was made the special order for the second Monday in February.

The Military Committee reported a bill to increase the military establishment, which was made the special order for Monday next.

Mr Bayard, from the Judiciary Committee, reported a resolution that Messrs. Bright and Fitch, whose election as Senators from Indiana is contested—and all persons protesting against their election, or any of them by themselves or their attorneys or agents, be permitted to take testimony on the allegations of the protestants and the sitting members touching all matters of fact therein contained, before any Judge of the District Court of the U. S. or of the Superior Court of Indiana, by giving ten days notice.

The Senate then took up the joint resolution authorizing the President to present a medal to Com. Paulding, as a testimonial of the high sense entertained by Congress of his gallant and judicious conduct in arresting a lawless military expedition, and preventing the same, from carrying on actual war against Nicaragua.

Mr Clay said it would seem like pre-judging the question to discuss it at the present time. As the Com. on Foreign Relations had not yet made a report on the President's Message in reference to the arrest of Walker, the report should take that direction.

Mr. Doolittle could not foresee what might be the final disposition of the resolution, but desired to state the grounds on which he had deemed it his duty to introduce it. He wished to address himself calmly and dispassionately to the judgment of the Senate because by appealing to any partizan prejudice or passion he would not advance the object in view. He would speak earnestly for he felt deeply the importance of the proposition in the present juncture of affairs which involved, not only the character and conduct of a high and gallant veteran, an officer of the navy, but the policy of the present administration on the neutrality laws, the law of nations towards the feeble republics of Central America and perhaps more than all other things, the honor, integrity and good faith of the government of the United States.

Mr. Doolittle referred to the history of Walker, who he said was first heard of as a military adventurer in Sonora, where with a handful of misguided followers, he was completely repulsed and defeated. Subsequently entered Nicaragua where for a time he was more successful. He held or seemed to hold the power of government there, but lost it by the same means as he acquired it. At Rivas he was rescued from destruction by officers of the United States government. Whatever power Walker had in Nicaragua, was ceded upon his surrender at Rivas, whither it was de jure or de facto.

He read extracts of letters from Yrisarri and Molina to the Secretary of State to show their gratitude to Com. Paulding for arresting Walker and his men, and quoted from Puffendorf and Vattel to sustain his positions. Had Paulding quietly worked on and made no attempt to interfere with the lawless proceedings of Walker, it might have been justly inferred that this government was in collusion with him and not acting in good faith toward Nicaragua.

He repudiated such an idea, and thought all the power the government possessed in the premises was conferred on Paulding in good faith, and it would have been a crime for that officer to have neglected, upon a mere technicality, to carry out the clearly expressed wishes of the government.

He argued that government might justly be held responsible, not only for what they do, but for what they fail to do; and also for what is done by its citizens with the knowledge of the government when they have the power to prevent it; hence for the neglect of government to prevent the expedition against Nicaragua, from being organized and set on foot within its limits.

Mr Brown of Miss. moved a substitute, declaring the arrest of Walker a violation of the sovereignty of a friendly power, and not sanctioned by any law, and that Congress disavows the act, and expresses condemnation of Com. Paulding's conduct.

Mr Brown said that as we were not at war with Nicaragua, it was a violation of territorial sovereignty. He had listened to hear by what laws Paulding's act was to be justified. The President had said it was a grave offence, and although he did attempt to palliate it he did not attempt to justify it on any legal ground.

If there ever was a fair election in Nicaragua, it was when Walker was elected—yet he had been called a pirate. If so, what right had the Executive to turn a pirate loose upon the streets of Washington? But this was a miserable pretext.

All he asked was that Congress should disavow and condemn the act of Paulding, and on the ground that it was disavowed by the administration.

We had indeed fallen on strange times, when Paulding could say to the Sec'y of the Navy, "You fogy, you are meddling with matters you know nothing about." The Secretary, instead of reprimanding him, said he to her thought he had a right to dispose of the naval forces as he pleased. If such a letter had been addressed by Porter, Elliott, or any of the old captains to such Secretaries as a Smith, Thompson or Southard, he would have been rebuked and punished. If the present Secretary does not think fit to vindicate his conduct, he can let it alone.

The resolution proposes a medal to Paulding for gallant conduct. Great God! Paulding, commanding 100 guns, with 500 or 600 men, captured Walker and his handful of followers, who laid down their arms at the first summons! Was Congress for this called upon to vote a falsehood? Paulding said his men acted with extraordinary gallantry. He (Mr. Brown) supposed the next thing would be, if our army shall approach Salt Lake, and make a desperate charge and capture the women, Congress will be called upon to vote the soldiers medals for extraordinary gallantry!—(Laughter.) That would be much more gallant than the act of Paulding, and much more deserving of medals.

He undertook to say that the expedition was not unlawful. The men had a right to expatriate themselves. There is no proof that the expedition was set on foot in the United States. They had a right to go to Nicaragua, taking the consequences of their own acts. He repeated, he would not vote for a medal to a man who violated the laws of his own country and who, as the President says, committed a grave error.

Mr. Pugh said—If, as has been charged, Walker and his men were fugitives from justice, why were they not handed over to the Marshal for the District of Louisiana, where the offence was committed? It is idle to say they were arrested as fugitives. If as pirates, why were not Walker and his men, when in New York and Norfolk, committed to prison? Was it true, that the President could, of his own will, without authority from Congress, send not only the navy but the army to a foreign country to carry on war? The law is susceptible of no such construction. The power of the President, under the neutrality law, is to use the army and navy and the militia to prevent unlawful military expeditions being fitted out and carried on from our territory.

If the expedition escapes, his power is at an end. If Walker went to a peaceful country and committed an offence, he deserved the severest reprehension; but if he went to a country distracted for years, and took upon himself and his followers all the consequences of war, he did nothing more than persons have always done. He should vote for no medal. If the President could, passing from the high seas, go into a foreign country, and that country could arm him with despotic power, it was time that some limit should be placed to such absolute and extraordinary proceedings.

Mr. Pearce obtained the floor, and the Senate adjourned till Monday.

HOUSE—At the instance of Mr. Burlingame the oath of office was administered to Mr. Gooch, the successor of Mr. Banks.

Mr Kunkel of Penn. asked to be excused from service on the Select Committee to investigate the disbursement of the tariff fraud by the Middlesex Manufacturing Co.

Mr. Durfee hoped not as that gentleman the other day in the most earnest manner charged the New England members with joining with the free traders to strike down the interests of Pennsylvania. As a representative of New England, he wanted the matter thoroughly sifted and Mr Kunkel's mind relieved.

Mr. Kunkel was excused.

Mr. John Cochrane, from the Committee on Commerce, reported a bill to refund Barclay & Livingston and others the duties on certain goods destroyed by fire, in the city of New York, on the 19th of July, 1846. Also a bill providing for the general introduction of a uniform code of marine signals. Mr. Cochrane said that this bill was of more importance to commerce and to the reputation of the country for humanity, than any other which could be presented, and should be passed in preference to them.

Mr. Bocock, from the Naval Committee, reported back the Senate resolution, extending till the 17th of April the time during which officers aggrieved by the Retiring Board can make application for an examination into their cases, which passed with an amendment, providing the time when such examination be made, shall not be extended.

Mr Bocock said the bill was to enable the Court of Inquiry to finish the cases now before them.

Glancy Jones, from the Committee on Ways and Means, reported the Fortification, Civil, and Legislative Appropriation bills.

Mr. Phelps, from the same Committee, reported a bill appropriating $700,000 to supply the deficiency in the printing and binding accounts of the last two Congresses.

Various reports from Standing Committees were made, but the above were the most interesting, and at an early hour the House adjourned.

DETROIT, 21st.

An extra session of the Michigan Legislature was convened yesterday at Lansing. The exigencies requiring it, as stated in the Governor's Message, are the revision of the Judicial districts, some deficiency in the State finances, &c. He recommends an appropriation for repairs of the St Mary's Ship Canal. The Governor favors the withholding of the swamp lands from sale, and a reduction in price of the public lands. He condemns the act on of the Federal Government in relation to Kansas affairs.

CONVICTION OF THE MURDERERS.—The trial of Abraham Cox and Peter Williams at Portland, for the murder of Quinton D. Smith, mate of the brig Albion Cooper, terminated on Wednesday. The jury, after an hour's deliberation, returned a verdict of *guilty*. The counsel for the defendants gave notice that exceptions would be filed to some of the rulings of the Court.

FROM THE PLAINS.—*St. Louis, Jan. 19.*—The Leavenworth City Ledger of the 8th inst., says that three young men, Henry Baker, James Smith and Alexander Francis, arrived there on the afternoon of the 7th inst., direct from Fort Bridger. They came the whole distance, 1200 miles on foot, and accomplished their journey in forty-five days. They report, that the day they left six Mormons came into camp and reported that the Mormons were in a state of civil war; Brigham Young and about one half desiring to march against the troops—the other half being in favor of the troops coming into Salt Lake and establishing a military government there and overthrowing the present power that be.

Wistar's Balsam of Wild Cherry.

[From the editor of the Baltimore Patriot.]

BALTIMORE, Dec. 18.

Dr. Seth W. Fowle, Boston, Mass. Dear Sir—I feel it to be due to you to say that a young lady, a member of my family, had been suffering for several years under a bronchial affection, and the disease had made such progress, notwithstanding the best medical aid had been consulted, that great fears were entertained that the disease, with her, as with so many others, might speedily terminate in death. I was induced, through the persuasion of a friend, to try your DR. WISTAR'S BALSAM OF WILD CHERRY, and after she had taken three bottles, she felt entirely relieved of the attack.

Very respectfully yours, F. HILTON.

None genuine unless signed I. BUTTS on the wrapper.

Agents—J. B. Ingraham, Warren L. Alden, Bangor; Pole; Hall, Milford; J. Y. Richardson, Oldtown; Hooper, Jr., Castine; John Stevens, Bluehill; Moses Hale, Ellsworth; E. H. Parker, Bucksport; John Atwood, Jr., Frankfort. 3awd&w1w

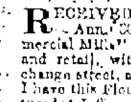
FLOUR,

Wheat Meal & Shorts.



The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat,* for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double bolted before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.
Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the only line giving entire Through Tickets, including meals, on the Isthmus.
Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.
Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and short passage without any detention on the Isthmus.
Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 16 Broad Street, Boston.

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:
Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.
Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.
Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.
The Boats arrive in season for the passengers to take the earliest trains out of the city.
The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value. L. BILLINGS, Agent.

500 Agents Wanted

A Homestead for $10.

THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpepper County, Va., to be divided among 10,200 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars* down; or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm, ranging in value from $10 to $25,000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1350 Lots are already sold, and a company of settlers, called *"the Rappahannock Pioneer Association,"* is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.
Nearly 45,000 acres of land, in different parts of Virginia, now at command, and will be sold to settlers at from $1 up to $800 per acre.—*Unquestionable titles will in all cases be given.*—WOOD CUTTERS, COOPERS, FARMERS, &c., are wanted; and
500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some Agents write that they are making $200 per month. For full particulars, subscriptions, circulars, &c., apply to E. BAUDER, Port Royal, Caroline County, Va.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.
This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.
The boxes used in this Hive for storing honey, are the best adapted, in their size, for the market, holding from three to six pounds each.
The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives, and individual rights.
For sale, fifty swarms of Bees, with the new hives.
Bee hives, individual rights, &c., address E. S. TORREY, Fifth-street, Bangor.

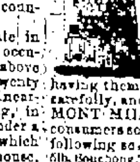
TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,) No. 8 *Broad, near State Street,*..........*Boston.*



Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of
Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves; Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.
Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales, we annex the following scale of prices, viz:
5lb. Souchong Tea, 1,75 5lb. Mocha Coffee, 1,10
5lb. Oolong Tea, 2,00 5lb. Java Coffee, 1,00
5lb. Y. Hyson Tea, 2,50 8lb. good Coffee, 1,00
The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.
SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.
DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.
TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, *"Chinaman grinding coffee,"* may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be, the same as that which has been sold for fifty cents a pound by druggists.
The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c.
Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.
To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.
TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S

CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of Horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body, that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Hots, &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same feed.
The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedily cured by them. Also, colds and surfeit of any kind are cured by one or two of these powders, if given according to directions.
In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage, to carry off all humors of the blood, and to restore a healthy action to the glands of the throat.
We, the subscribers, hereby certify that we have used *Miller's Condition Powders,* for Horses and Colts, prepared by *T. C. Butler,* Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen, and others, dealing in or keeping Horses and Colts.
They will clean the Worms and Bots out of a Horse's stomach, and give him a good appetite for his food, and a good coat.
They are also good for the Heaves, and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.
They clean the water, loosen the skin, and invigorate the whole body, enabling the horse to do more work with the same feed (Signed by)
Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and Stage office on Stanstead Plain, and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old.
Erastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada, and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the bay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which has been taken to California, and is held at $15,000. Mr. Lee keeps from 40 to 60 horses and colts, and makes great use of Miller's Condition Powders.
Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.
H. Heath—drives from Lyndon to St Johnsbury.
A. B. Flint—St. Johnsbury, Vt., dealer in horses.
Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on Railroad.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)
76 State Street, opposite Kilby-st., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE, Late Commissioner of Patents.
[From the present Commissioner.]
"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Com'r of Patents.

Everybody Uses

LUTCHER'S DEAD SHOT!!

House Keepers use it because it Clears their Houses of Bed Bugs!
Landlords use it, because they wish their Customers to "Sleep in Peace."
Steamboat Captains and Shipmasters use it, to enjoy "Balmy sleep, nature's sweet restorer."
It leaves no poisonous dust to infect the air every time you make the bed, or sweep the room, as is always the case after using Corrosive Sublimate dissolved in alcohol. It remains a long time wherever applied, and is SURE DEATH to the whole

BED-BUG TRIBE!

One thorough application, not only to the bedstead, but to the cracks and crevices about the ceiling, if the house is old, and the Bugs are done for, used up with a perfect

DR. SANFORD'S

INVIGORATOR,

or Liver Remedy.

(SANFORD'S LIVER INVIGORATOR — printed vertically down the middle of the column.)

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common headache, all of which are the result of a Diseased Liver.
The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.
To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.
A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease, and effecting a radical cure without any of the disagreeable effects felt by using Calomel or Mineral Poison, that are usually resorted to.
To all who will follow these directions a cure is positively guaranteed. Sick Headache can be cured by the use of two teaspoonsful, taken as soon as the attack is felt.
The Invigorator never fails to cure sour stomach or the bad effects experienced after eating.
Billious attacks yield readily to one bottle, and Chronic Diarrhoea, difficult as it is to cure, is never troublesome to those who take the Invigorator.
For Dyspepsia or Jaundice, nothing in the known world acts so fully or cures so quickly as the Invigorator. It removes all yellowness and unnatural color from the skin.
For Night Mare, take a dose before retiring, and it is warranted a sure preventive.
For Female Obstructions it is a safe and sure remedy, as it removes the cause of the disease.
Costiveness cannot exist where the Invigorator is freely taken, while Chol... it yields readily to a few doses.
It must be known that all these are *Liver* diseases, or caused by a deranged *Liver*, and to cure them needs a LIVER medicine, and one of great power.—The Invigorator is such, a medicine; it has medicinal powers never before discovered; that will cure all diseases of the *Liver*, no matter of how long standing, or what may be their form. The active medicinal virtues are extracted from the gums used is such as to be astonishing to all who see their effects, for none can use the medicine without receiving benefit. It acts as a gentle cathartic, and should always be taken in sufficient quantities to operate on the bowels gently. The best way is to take it; is to take the medicine in the mouth, then take some water and swallow both together. In this way the medicine will scarcely be tasted.

"The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known. Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor,—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.
Give them to some patient who has been prostrated with billious complaint: see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give him these PILLS, and mark the effect; see the scabs fall from his body; see the new, fair skin that has grown under them; see the late leper that is clean. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him. Give them to the lean, sour, haggard dyspeptic, whose gnawing stomach has long ago eaten every smile from his face and every muscle from his body. See his appetite return, and with it his health; see the new man. See her that was radiant with health and loveliness blasted and too early withering away; want of exercise or mental anguish, or some lurking disease, has deranged the internal organs of digestion, assimilation or secretion, till they do their office ill. Her blood is vitiated, her health is gone. Give her these PILLS to stimulate the vital principle into renewed vigor, to cast out the obstructions, and infuse a new vitality into the blood. Now look again—the roses blossom on her cheek, and where lately sorrow sat joy bursts from every feature! See the sweet infant wasted with worms. Its wan, sickly features tell you without disguise, and painfully distinct, that they are eating its life away. Its pinched-up nose and ears, and restless sleepings, tell the dreadful truth in language which every mother knows. Give it the PILLS in large doses to sweep these vile parasites from the body. Now turn again and see the ruddy bloom of childhood. Is it nothing to do these things? Nay, are they not the marvel of this age? And yet they are done around you every day!
Have you the less serious symptoms of these distempers, they are the easier cured. Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1.
Through a trial of many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.
Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick every where may have before them the information it contains. Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.
